

AI Server Performance Charts

Overview

Real-time analysis of AI API performance trends. Track latency patterns, availability statistics, and stream rate metrics from our independent monitoring. Performance metrics are averaged over the selected time. Our database of benchmark results, featuring the performance of leading AI models on challenging tasks. Explore trends in AI capabilities across time, by benchmark, or by model. ECI. Epoch AI collects key data on machine learning models, benchmarks, data centers, chip sales, hardware, and companies to analyze historical and contemporary progress in AI. Our databases are a valuable resource for policymakers, researchers, and stakeholders to foster responsible AI development and. Independent rankings of GPT, Claude, Gemini, Llama, DeepSeek and 300+ AI models — composite LLM Stats Score, updated continuously from public benchmarks and live API metrics. See the full LLM Leaderboard for complete LLM rankings with advanced filters. Speed kills - or rather, the lack of it. · GitHub Password Forgot password?
