

Angola Optical Cable Head Manufacturer

Article Overview

Angola Cables S.A. is the leading provider of subsea fiber optic infrastructure and digital connectivity in Angola, supporting both domestic and international telecommunications networks.

Angola Cables S.A.

Angola Cables S.A. is headquartered in Luanda and operates as a major player in Angola's telecommunications sector, particularly in subsea fiber optic systems . The company manages the South Atlantic Cable System (SACS), the first subsea fiber optic cable connecting Africa directly to South America, and the MONET cable system, providing high-capacity international connectivity . Angola Cables also operates data centers and digital platforms that support Angola's petroleum sector, government communications, and financial systems . While primarily an infrastructure operator, Angola Cables collaborates with partners and resellers to distribute optical cable solutions and ICT services globally .

Other Cable Manufacturers and Suppliers

For broader optical cable manufacturing in Angola, there are multiple local and regional suppliers listed in trade directories . These companies provide a range of products including:

- Fiber optic cables for telecommunications and internet service providers
- Electrical and power transmission cables
- Subsea and terrestrial cable solutions Trade platforms like Trademo provide detail...
