

Bulgarian Imported Distribution Box

Principle and Price

Article Overview

Bulgarian distribution boxes are electrical enclosures designed to safely organize and distribute power, with prices ranging from approximately Rs 1000 to Rs 4800 depending on configuration.

Principle of Operation

A distribution box (DB) is an electrical enclosure that houses circuit breakers, fuses, and protective devices to distribute electrical power from a main supply to multiple circuits. Bulgarian models, such as the Mora Bulgaria Plastic Waterproof Distribution Box, are designed for both residential and industrial applications. Key operational principles include:

- **Circuit Protection:** Each outgoing circuit is protected by a breaker or fuse to prevent overloads and short circuits.
- **Segregation and Organization:** Internal compartments separate live, neutral, and earth connections, ensuring safety and ease of maintenance.
- **Durability and Safety:** Many Bulgarian boxes are IP65-rated, making them resistant to dust, water, and chemical exposure, suitable for harsh industrial environments like mining, petrochemical, and shipbuilding sectors ().
- **Material and Design:** Boxes are typically made from high-quality plastic or polyester, providing insulation and corrosion resistance. Wall-mounted designs allow easy installation and access ()....
