

CFP2SFP Manufacturers

Article Overview

The CFP2SFP is manufactured by I.L.M.E. S.p.A.

The CFP2SFP is a type of connector module listed in the datasheet from Alldatasheet, where it is identified as part of the ILME multipole connector series produced by I.L.M.E. S.p.A. . I.L.M.E. S.p.A. specializes in industrial connectors, including heavy-duty multipole connectors suitable for panel mount and base applications. The CFP2SFP is part of their CHI series, which includes models like CHI06L, CHI10, CHI16, and CHI24, designed for reliable electrical connections in industrial and networking environments .

Product Context

While CFP2SFP is a connector module, it is related to the broader CFP2 family of high-speed interconnects used in networking systems. CFP2 connectors are designed for multi-hundred Gb/s systems, supporting Ethernet and other IEEE/ITU-T compliant applications. They feature a 104-position, 0.6 mm pitch design, rated for 25 Gb/s per channel, with resonance dampening and optional heat sinks for thermal management .

Applications

- Industrial and networking systems requiring robust multipole connections
- High-speed data transmission in data centers or telecom equipment
- Panel mount and bulkhead installations where reliable electrical contact is critical...
