

CIF Price Optical Router SFP

Article Overview

SFP optical transceivers for routers typically range from \$5 to \$1,000 per unit depending on speed, brand, and optical reach, with CIF prices including shipping and insurance slightly higher.

Price Overview by Type and Speed

- 1G SFP Modules: Generic or compatible units cost \$5-\$25, while OEM-branded modules (Cisco, HPE, Juniper) range \$60-\$120+ for industrial or extended temperature versions .
- 10G SFP+ Modules: Compatible 10G SR modules often sell for \$20-\$80, whereas OEM LR or ER modules can reach \$200-\$500+ .
- 25G SFP28 Modules: Low-cost SR modules may be \$16-\$80, while branded single-mode or long-reach modules can cost \$200-\$900 .
- 40G QSFP Modules: Compatible SR4 modules are \$40-\$150, with LR4 or WDM modules priced \$300-\$1,000+ .
- 100G QSFP28 Modules: Short-reach MMF compatible modules are relatively affordable, but carrier-grade DWDM or coherent long-haul units can exceed \$1,000 .

Brand and Compatibility Considerations

- Cisco SFPs: Premium pricing due to ecosystem integration and certification; prices vary by module type and optical reach .
- Huawei SFPs: Pricing influenced by speed, optical reach, and certification; higher-specification modules cost more due to advanced laser components and signal integrity requirements
