

Companies that use industrial switches

Article Overview

Industrial switches are widely used by companies in manufacturing, energy, healthcare, transportation, and automation sectors, with major providers including Cisco, Siemens, Rockwell Automation, Omnitron Systems, and C&K Switches.

Leading Industrial Switch Manufacturers

- Cisco: Offers industrial Ethernet switches used globally in manufacturing, energy, healthcare, and transportation, supporting IoT and smart city integration .
- Siemens AG: Provides industrial-grade Ethernet switches for harsh environments, particularly in manufacturing and energy sectors, with a focus on Industry 4.0 and digital twin technologies .
- Rockwell Automation: Supplies scalable networking solutions integrated into industrial automation systems, emphasizing smart manufacturing and cybersecurity .
- Omnitron Systems Technology, Inc.: Manufactures Ethernet switches, media converters, and network interface devices for industrial LAN and WAN applications .
- C&K Switches: Produces high-quality electromechanical switches for factory automation, energy, building automation, and safety-critical applications .

Industries Using Industrial Switches

Industrial switches are essential in sectors that require reliable, durable, and precise control of electrical and network systems:

- Manufacturing and Industrial Automation: Switches monitor machine positions, initiate processes, and ensure operational safety .
- Energy and Power Generation: Used for high-voltage control, energy distribution,...
