

Distribution box concealed door bearing model

Article Overview

Common concealed door hinges for distribution boxes include models CL234 and PZ50-20, designed for smooth operation, high bearing capacity, and durable installation in electrical cabinets.

Popular Models and Specifications

- CL234 Hinge: Made of zinc alloy, this hinge is finely polished, durable, and provides strong bearing capacity. It allows smooth, silent opening and closing of cabinet doors without deformation or looseness, suitable for small to medium-sized distribution boxes. Dimensions are compact, typically around 0.39 x 0.39 x 0.04 inches, and it is widely used in network and industrial cabinets.
- PZ50-20 Concealed Distribution Box Hinge: Manufactured by DELIXI, this hinge is integrated into a 24-way plastic distribution box. The box uses flame-retardant ABS material for the mouth panel and cold-rolled steel for the bottom box, with electrostatic spray treatment for corrosion resistance. The hinge supports concealed installation, providing a modern, clean appearance while maintaining IP30 protection grade. Dimensions: 438mm x 230mm x 75mm (outline), installation dimensions 413mm x 210mm x 75mm.
