

Does the Xiaomi Router Pro support dual fiber optic connections

Overview

Accordingly, Xiaomi asserts that the new router is ready to split a fiber-optic cable's input between 4 2.5Gb ports for an up to "dual LAN and dual WAN" network. It can do so with a choice between a 10Gb RJ-45 or a 10Gb SFP+ port. Multiple devices can connect simultaneously with minimal interference, easily handling VR gaming, 8K streaming, HD conferencing and large file transfers. Suitable for both 10 gigabit and gigabit broadband homes. 1,7,8 Ethernet ports deliver up to 30Gbps total bandwidth, with each 10 Gigabit Ethernet. The first-gen device can support up to four 2. The new high-end router supports AI dual 10G wired connections, tri-band Wi-Fi 7, and personal storage expansion. It is priced at 1,699 yuan (\$238) in China. It aims to establish itself as a strong alternative to flagship products from ASUS, Netgear, and TP-Link. 0 port enables high-speed wireless.
