

Dust cover for fiber optic splice box

Article Overview

Dust covers and protective enclosures safeguard fiber optic splices from dust, moisture, and environmental damage, ensuring reliable network performance.

Overview

Fiber optic splice boxes are vulnerable to dust, dirt, and moisture, which can degrade signal quality or damage fibers. Dust covers and protective enclosures are designed to shield splices and connectors, maintaining optimal performance and extending the lifespan of fiber networks . These covers are used in both indoor and outdoor applications, including residential, commercial, and FTTH (Fiber-to-the-Home) deployments.

Types of Dust Covers and Enclosures

- Reusable Fiber Optic Splice Enclosures
- Made for simplex fiber cables and multiple connector types (SC/APC, SC/UPC, ST, LC).
- Easy click-close latch for quick installation and maintenance.
- Can be mounted on walls, buried, or placed in tight corners.
- Protects against dust, UV damage, and wear .
- FTTH Fiber Protection Boxes
- Constructed from high-strength ABS material for durability.
- IP67-rated waterproof protection with a rubber sealing ring.
- Compact and lightweight, suitable for indoor and outdoor use.
- Ideal for protecting drop cable splices and connectors in residential or commercial...
