

FTTH Special Optical Cable Upgrade Version

Article Overview

The FTTH Special Optical Cable Upgrade Version, exemplified by the LC-QR™ Drop Cable, enables seamless, safe, and future-ready upgrades from traditional FTTH networks to FTTR and FTTD deployments.

Overview

The FTTH Special Optical Cable Upgrade Version is designed to enhance existing fiber-to-the-home networks by providing higher performance, improved safety, and compatibility with next-generation connectivity. A key example is the LC-QR™ (Quick Release) Drop Cable, which integrates a patented quick-release connector that protects both the cable and connected devices from accidental stress or snagging, ensuring reliable and damage-free connections in residential, commercial, and enterprise environments .

Key Features

- **Safe Connections:** The quick-release latch automatically disengages under strain, preventing damage to cables and LC ports .
- **High Optical Performance:** Low insertion loss and excellent return loss maintain signal integrity for high-speed broadband .
- **Flexible Applications:** Suitable for FTTR (Fiber to the Room), FTTD (Fiber to the Desk), in-home fiber drops, and CPE interconnects .
- **Compact & Reliable:** Uses a 3mm ruggedized indoor cable, available in PC or APC...
