

Fiber Optic Rack Patch Management

Overview

Rack-mount, wall-mount, and sliding patch panels for high-density fiber management — 12 to 288 ports. A fiber optic patch panel — also called an Optical Distribution Frame (ODF) — is the backbone of any structured fiber cabling system. It provides a centralized termination point where incoming. The Foss Fiber Management System is designed for durability, easy installation, scaling and management. The cabinets are produced in black anodised aluminum and the multi-purpose rack comprises a lightweight aluminium frame. one was designed with the user in mind – for IT engineers by an IT engineer – to keep network racks organized. All XFM® panels are fully compatible with AFL's XFM® Optical Cassette, Poli-MOD, and WDM solutions. The Xpress Fiber Management® (XFM®) 4RU patch panel is a rack.
