

Fire cable tray price information table

Article Overview

Fire cable trays typically range from USD 50 to USD 300 per unit depending on material, type, and fire-resistance specifications, with market growth driving gradual price increases.

Market Overview

The global fire cable tray market was valued at approximately USD 1.2 billion in 2024 and is projected to grow to USD 2.5 billion by 2033, reflecting a CAGR of 8.5% from 2026 to 2033 . The market growth is driven by stringent fire safety regulations, increasing adoption of fire-resistant materials, and technological advancements in tray design . The global market size is expected to reach USD 3.5 billion by 2028, with a CAGR of 9.7% due to rising awareness of fire safety standards .

Price Factors

Fire cable tray prices vary based on several factors:

- **Material:** Steel, aluminum, and composite trays differ in cost, with steel generally being more affordable and composite or aluminum trays offering higher corrosion resistance and lighter weight .
- **Type:** Intumescent barriers, fire-resistant boards, and firestop pillows have different price points, with specialized fireproof designs costing more .
- **Size and Length:** Longer or wider trays increase material usage and cost.
- **Installation Method:** New installations may be priced differently from retrofits due to labor and customization requirements
