

Fireproof cable trays in stock

Article Overview

Fire-resistant cable trays are available from multiple suppliers, offering certified solutions for 60–120 minutes of fire protection, with materials and designs suitable for industrial, commercial, and data center applications.

Key Suppliers and Options

- Accio offers a range of fire-resistant cable trays with certified fire ratings (60, 90, 120 minutes) under UL, BS, and IEC standards. Materials include hot-dip galvanized steel for strength, aluminum for lightweight applications, and FRP for corrosive environments. Options include low smoke and halogen-free (LSZH) trays suitable for enclosed public spaces and data centers .
- Meka Pro provides over 1,200 fire-tested cable support products, ensuring circuit integrity during fire events. Their systems are tested according to EN 1363-1 standards, with E60 and E90 classifications indicating functional circuits for 60 or 90 minutes under fire conditions. Meka emphasizes installation compliance, fire-rated fastenings, and non-toxic flue gas materials .
- Hermi Solutions supplies E90 fire-resistant cable trays for surface cable laying, available in standard or lightweight designs. Their team offers guidance to select the most suitable solution for specific project requirements .
- NIEDAX specializes in fire-resistant cable trays that maintain circuit integrity for critical systems such as elevators, emergency lighting, and alarm systems, compliant with DIN 4102 standards. They provide system solutions and direct supplier contact for quotes and local availability .
- Alibaba lists multiple suppliers offering customizable fire-resistant cable trays for networking and industrial applications, allowing buyers to select material, size, and...
