

Grenada Outdoor Distribution Box Dimensions

Article Overview

A typical Grenada 8-module outdoor distribution box measures approximately 200 x 155 x 95 mm.

Specific Dimensions and Features

The 8-module surface-mounted Grenada distribution box is designed for outdoor use and features IP65 waterproof protection, flame-retardant and impact-resistant plastic construction, and a transparent window for monitoring breaker status. Its physical dimensions are approximately 200 mm in height, 155 mm in width, and 95 mm in depth, making it suitable for small residential or commercial installations .

Construction and Installation

- Material: Durable plastic with flame-retardant and impact-resistant properties
- Protection: IP65 rating ensures water and dust resistance for outdoor environments
- Installation: Comes with a complete kit including screws, wall plugs, and cable entry points
- Module Capacity: Supports up to 8 modules in a single row, sufficient for basic outdoor circuits

Additional Considerations

- The box does not include separate neutral (N) and protective earth (PE) terminals,...
