

How much does a 10km 10g optical module cost

Overview

The average 10G SFP price typically falls between \$10 and \$300, depending on the module type, transmission distance, and brand. For most standard enterprise and data center deployments, the practical buying range is much narrower—and far more predictable—than many price lists. As network technology advances rapidly, 10G networks are becoming mainstream. 10G optical modules play a critical role in enabling high-speed fiber optic transmission. Svelol's 10G SFP+ optical modules incorporate the latest optical chip and packaging technology to deliver lower power consumption. The price of a 10G SFP+ module typically ranges from low double digits to several hundred dollars, and in some cases even higher. If you search for “ 10g sfp. High-Speed Connectivity: 1310nm 10GBase-LR SFP+ module offers blazing-fast 10 Gigabit Ethernet connectivity, delivering data at 10 Gb/s speed over long distances. Click to get your 10G SFP+ transceiver modules from nearby warehouses. Trusted by 260K+. FiberMall SFP-10G31-LR Compatible SFP+ Module is designed for optical communication applications and supports link lengths up to 10 km over LC duplex SMF fiber.
