

How to install fiber optic rack patch panels

Overview

Learn how to install a 12 fiber rack mount patch panel from FIBERONE®. This short video outlines the various parts of the FST-175 12 port patch panel and addresses appropriate cable preparation, splicing method, patch cord installation, and label placement necessary for. Gather the necessary tools, including a 1U rackmount fiber enclosure, a 48-port LC fiber patch panel, and screws. Check the cable length to ensure that the cables are long enough to pull. And label the ports to identify different cables so that technicians have clear instructions on what they need. Fiber optic patch panels are enclosures that act as a distribution hub for fiber cable. A bulk (multi-strand) fiber cable enters the patch panel and then each fiber strand is separated into individual strands or pairs of strands. This document describes the installation procedure for CCH-01U (1U) and CCH-02U (2U) enclosure.
