

Indoor Optical Cable Bidding Requirements

Overview

For every fibre optic procurement tender, DTVP, EVB-IT and technical specification, public authorities and municipalities have been required to consider the new VDE guidelines 0800-730 and the EU Gigabit Infrastructure Regulation (GIA) since February 2026 – these define binding. For every fibre optic procurement tender, DTVP, EVB-IT and technical specification, public authorities and municipalities have been required to consider the new VDE guidelines 0800-730 and the EU Gigabit Infrastructure Regulation (GIA) since February 2026 – these define binding. This document outlines the recommendations for single-mode optical fiber cables used in telecommunication networks within buildings, focusing on their mechanical and environmental characteristics. It specifies that these cables must comply with standards such as ITU-T G. 657, and IEC. The Insulated Cable Engineers Association (ICEA) standards and guideline publications, of which the document contained herein is one, are developed through a voluntary consensus standards development process. In order for an optical fibre to perform appropriately, characteristics that a cable should have been described. Tendering authorities and. Optical Fibre Cables and Accessories tenders are published by government departments, public sector organizations, infrastructure authorities, international agencies, and private companies through official procurement portals and e-tendering platforms.
