

Is a distribution box the same as a metering box

Overview

The meter box is a special box for electricity metering, such as ammeter, watt hour meter, power meter, etc. Understand the difference between meter boxes and distribution boxes, their roles, safety functions, standards, and correct applications in electrical systems. Safe and well-organised electrical systems play a critical role in protecting equipment, property, and people. They all provide an interface between the user of the electrical devices and the electricity going. The meter box and distribution box are collectively referred to as "three boxes" 1□ Illumination box 2□ Power box 3□ Metering tank The electricity meter installed in the electricity meter box belongs to the "metering box", which has anti-theft devices according to different requirements;
