

Price of Flame-Retardant Stainless Steel Cable Trays in Australia

Article Overview

Flame-retardant stainless steel cable trays in Australia typically range from AUD 80 to AUD 250 per meter, depending on type, stainless steel grade, and fire-resistance rating.

Price Range and Factors

The cost of stainless steel cable trays varies based on several factors:

- **Material Grade:** SS304 is commonly used for indoor applications and is less expensive, while SS316 is required for corrosive or marine environments, increasing the price .
- **Tray Type:** Ladder, perforated, wire mesh, and solid-bottom trays differ in manufacturing complexity. Ladder trays generally cost more due to structural strength, while perforated trays are moderately priced .
- **Fire-Resistance Rating:** Flame-retardant or E90-rated trays designed to maintain circuit integrity during fire exposure add to the cost .
- **Order Volume:** Bulk purchases reduce per-meter cost, while small orders or specialized coatings can increase prices .
- **Accessories and Installation:** Brackets, hangers, and fire-rated wraps or intumescent coatings may add 10-20% to the total cost .
