

Price of Three-Wire Quick Connector Box

Article Overview

Three-Wire Quick Connector Boxes typically range from \$5 to \$25 per unit, depending on features, material, and seller.

Price Overview

- Amazon offers 3-pole waterproof quick connector boxes suitable for live, neutral, and earth wires, with IP68 rating and flame-retardant PA66 material. Prices for these types generally start around \$8-\$15 per unit depending on size and cable range .
- Alibaba lists bulk and industrial options, including multi-circuit and single-circuit quick connect junction boxes. Prices vary widely, from \$5 for basic single-circuit units to \$20-\$25 for multi-circuit or high-durability models made from stainless steel, aluminum, or advanced polymers .
- eBay provides consumer-level 3-way wire connectors, often priced between \$5 and \$12, with options for fast shipping and small quantities .

Factors Affecting Price

- Material: Plastic/polymer boxes are cheaper, while stainless steel or aluminum units designed for harsh environments cost more .
- Waterproofing: IP68-rated connectors for outdoor or underwater use are priced higher due to sealing and rubber gaskets .
- Circuit Capacity: Multi-circuit boxes or those with pre-wired components are more expensive than single-circuit units .
- Certifications: UL, CE, TUV, or RoHS certifications can increase cost but ensure safety and compliance
