

# Price of low-voltage distribution boxes in Angola

## Article Overview

Low-voltage distribution boxes in Angola typically range from \$50 to \$300 per unit, depending on size, capacity, and certification.

### Overview

Low-voltage distribution boxes, also known as ready boards or meter enclosures, are essential for residential, commercial, and industrial electrical installations. In Angola, these boxes are used to safely distribute electricity from the main supply to individual circuits, often including sockets, lighting protection, and surge protection features .

### Price Range

- Small residential units (2–4 sockets, basic protection) generally cost \$50–\$100 per unit when imported from manufacturers like Smart Electrical Engineering Co., Ltd. in China .
- Medium commercial units with multiple circuits, higher protection ratings, or additional features can range from \$100–\$200 per unit.
- Industrial or custom low-voltage panels with advanced safety features, stainless steel enclosures, or smart metering capabilities may cost \$200–\$300 or more per unit, depending on specifications and customization .
