

Price of outdoor power distribution boxes and charging piles

Article Overview

Outdoor power distribution boxes for charging piles typically range from \$150 to \$500 or more, depending on size, material, and features.

Price Overview

The cost of an outdoor distribution box for EV charging piles varies based on material, size, waterproof rating, and additional features. For example:

- Galvanized steel or stainless steel boxes with waterproofing, anti-theft locks, and heat dissipation features are available on Amazon, with prices generally starting around \$150-\$300 for standard sizes like 25.98 x 22.05 x 12.2 inches (RBAFBDBAR-60X50X25CM/2) and can go higher for larger or more robust models .
- Customizable industrial-grade boxes from suppliers on platforms like Made-in-China or Alibaba may cost \$200-\$500 or more, depending on the number of circuit breakers, current/voltage capacity, and OEM/ODM customization options .

Factors Affecting Price

- Material: Stainless steel or galvanized steel boxes are more durable and weather-resistant, increasing cost.
- Waterproof and dustproof rating: Higher IP ratings (e.g., IP65 or above) for outdoor use add to the price.
- Size and capacity: Larger boxes with more circuit breaker slots or higher amperage ratings are more expensive....
