

Price of sheet metal cable trays in West Africa

Article Overview

Sheet metal cable trays in West Africa typically range from \$15 to \$80 per meter, depending on material, finish, and type.

Price Overview

The cost of sheet metal cable trays varies based on material, finish, and design:

- Pre-galvanised steel trays (light-duty, suitable for mild corrosion) generally cost \$15-\$30 per meter. These are ideal for indoor or less corrosive environments .
- Hot-dip galvanised trays (medium to heavy-duty, higher corrosion resistance) are priced around \$25-\$50 per meter, suitable for industrial or outdoor installations .
- Stainless steel trays (grades 304 or 316, for highly corrosive environments) can range from \$50-\$80 per meter, offering maximum durability and longevity . Tray types also influence pricing:
 - Perforated trays and wire mesh trays are generally less expensive than ladder-type trays, which are heavier and designed for larger cable loads .
 - Custom sizes or powder-coated finishes may increase the cost by 10-20% depending on supplier capabilities .

Sourcing in West Africa

While most suppliers listed are based in South Africa, companies like Hutaib Electrical provide manufacturing and distribution across Africa, including West African countri...
