

# Price of steel cable trays in North Africa

## Article Overview

Steel cable trays in North Africa typically range from \$15 to \$80 per meter, depending on material, type, and load rating.

### Overview of Steel Cable Tray Types and Materials

Steel cable trays are widely used for industrial and commercial electrical installations. Common types include:

- Ladder Cable Trays: Ideal for heavy-duty applications, providing strong support and easy access for maintenance .
- Perforated or Ventilated Trays: Allow airflow to prevent overheating, suitable for medium-duty installations .
- Wire Mesh or Basket Trays: Lightweight and flexible, often used for data and communication cables . Materials commonly used in North Africa include pre-galvanized steel, hot-dip galvanized steel, and stainless steel (304 or 316 grades) for corrosive environments . Pre-galvanized steel is suitable for mild conditions, while hot-dip galvanizing or stainless steel is preferred for coastal or industrial areas with higher corrosion risk.

### Price Ranges

While exact North African prices vary by supplier, the following approximate ranges can be used as a reference based on regional markets:

- Light-duty pre-galvanized steel trays: \$15-\$25 per meter...
