

Price quote for a secondary low-voltage distribution box

Article Overview

Secondary low-voltage distribution boxes typically range from \$150 to \$1,200 depending on specifications, capacity, and installation requirements.

Overview

A secondary low-voltage distribution box is designed to safely distribute electrical power from a main supply to various circuits in residential, commercial, or industrial settings. These boxes house circuit breakers, fuses, and control devices to manage lighting, motor loads, and other electrical circuits, ensuring safe and reliable operation .

Pricing Factors

The cost of a distribution box depends on several factors :

- Voltage and amperage rating: Higher capacity units for three-phase or industrial applications are more expensive.
- Number of circuits: More circuits increase complexity and cost.
- Material and construction: Steel enclosures or weather-resistant outdoor-rated boxes carry a premium.
- Features: Smart monitoring, remote control, or digital displays can increase the price.
- Installation and maintenance: Labor and compliance with electrical codes add to t...
