

Ranking of Optical Power Meter Manufacturers

Article Overview

As of July 2026, the top optical power meter manufacturers are L-com, Novanta Photonics, and Agiltron Inc., recognized for their product quality, innovation, and market presence.

Top Manufacturers

- L-com – Founded in 1982 and headquartered in North Andover, Massachusetts, L-com serves multiple industries including telecommunications, medical, and industrial automation. The company offers a broad range of wired and wireless communications products, including custom cable assemblies and RF components, and is known for its high-quality optical testing solutions .
- Novanta Photonics – Established in 1947 in the UK, Novanta Photonics specializes in laser-based diagnostic, analytical, micromachining, and fine material processing equipment. Their optical power meters are part of a broader portfolio that includes laser beam steering components, multi-axis scan heads, and ultrafast lasers .
- Agiltron Inc. – Agiltron provides advanced photonics solutions, including optical power meters, with a focus on precision measurement and multi-wavelength support. The company is recognized for innovation in fiber-optic testing and integration with automated test platforms .
- EXFO Inc. – A leading provider of fiber-optic test, monitoring, and analytics solutions, EXFO offers products such as the PX1 Power Meter and FTBx Power Blazer modules. The company emphasizes accuracy, multi-wavelength capability, and integration with optical time-domain reflectometers (OTDRs) for telecom and data center applications
