

Remove the original lighting distribution box

Article Overview

To safely remove an original ceiling light box, first turn off the power, disconnect the wiring, and then detach the box from its mounting using the appropriate tools.

Safety First

Before starting, turn off the breaker at your main service panel to disconnect electricity to the circuit. Use a non-contact voltage tester to confirm that no power is flowing through the wires. Label the breaker to prevent accidental restoration during the process .

Tools You May Need

- Screwdriver or power drill
- Pliers
- Hammer
- Voltage tester
- Safety glasses and gloves

Step-by-Step Removal

- Remove the Light Fixture Unscrew the screws holding the fixture in place, carefully lower it, and disconnect the wires by twisting off the wire nuts counterclockwise .
- Identify the Box Type and Mounting Ceiling boxes can be metal or plastic and may be mounted in several ways:...
