

Romanian manufacturer of 1U micro-module data center

Article Overview

ROMARG in Brasov, Romania, provides 1U micro-module colocation solutions and modular data center services.

ROMARG operates its own carrier-neutral data center in Brasov, offering secure, seismically safe facilities with high-capacity internet connectivity exceeding 300 Gbps . They provide 1U, 2U, and 4U rack colocation packages, which are ideal for small-scale or micro-module deployments. Clients can host their own hardware in a fully managed environment with dual power supply, direct internet connections, and optional remote hands support for installation and maintenance .

Key Features of ROMARG's 1U Micro-Module Services

- **Compact Rack Units:** Individual 1U slots for small servers or network appliances, suitable for micro-data center setups .
- **Secure Environment:** The data center is located in a building designed to minimize seismic risks and ensure physical security .
- **Connectivity:** Direct or one-hop access to all major internet providers in Romania, enabling high-speed, low-latency connections .
- **Remote Hands and Storage:** Free remote hands support for equipment installation and spare parts storage in dedicated metal cabinets .
- **Management Tools:** Clients receive a control panel for monitoring and managing their collocated equipment, with a guaranteed response time for support requests
