

Small electrical distribution boxes for sale in Australia

Article Overview

Small electrical distribution boxes in Australia are compact, standards-compliant enclosures designed for safe and reliable power distribution in residential, commercial, and light industrial settings.

Key Features and Standards

Australian small distribution boxes are designed to meet AS/NZS 61439, the national standard for low-voltage switchgear and controlgear assemblies, ensuring electrical safety, thermal performance, and durability in harsh environments . Many boxes also carry SAA certification, confirming compliance with local safety regulations . They are built to withstand extreme heat, humidity, and coastal conditions, often featuring corrosion-resistant materials and UV-stable powder coatings for long-term reliability .

Types and Configurations

- **Surface-Mount and Flush-Mount Boxes:** Available in compact sizes, typically ranging from 1-12 poles for small residential or light commercial applications .
- **Adaptable Boxes:** Modular enclosures made from PVC, thermoplastic, or polycarbonate, often rated IP65-IP66 for dust and water protection, suitable for indoor and outdoor use .
- **Portable Power Boards:** Rugged, Australian-made portable boards for temporary power distribution on construction sites or workshops, customizable for different voltages and outlets
