

South Asia Model Enterprise for Energy Internet

Overview

This €5 million EU-funded initiative aims at supporting a more connected regional power market that delivers affordable, clean and reliable electricity to people in Bangladesh, Bhutan, India, Nepal, and Sri Lanka. This report was prepared by Asia Clean Energy Partners, with guidance and inputs from the United Nations Office for Project Services (UNOPS) and Sustainable Energy for All (SEforALL). The research was commissioned by UNOPS to inform the potential design of a regional South Asia Energy Transition. USAID's mission statement highlights two complementary and intrinsically linked goals: ending extreme poverty and promoting the development of resilient, democratic societies. [Read More](#). Agora Energiewende, NewClimate Institute, Energy Research Institute. It has accounted for 11% of global energy demand growth since 2010 but is projected to contribute more than 25% of the growth. Today, the European Union (EU) together with partners launched an energy connectivity project in South Asia.
