

Southern Europe Underground Optical Cable Manufacturer

Article Overview

Key Southern European manufacturers of underground optical cables include Prysmian Group and Bertoli Cavi, both offering high-quality fiber optic solutions for civil and industrial applications.

Prysmian Group

Prysmian is a world-leading cable manufacturer headquartered in Italy, with extensive expertise in energy and telecom solutions, including underground fiber optic cables. They provide a wide range of products and services tailored to infrastructure projects, ensuring compliance with European and international standards. Prysmian's solutions cover both standard and customized optical cables suitable for underground installation, supporting telecommunications networks, smart grids, and industrial applications .

Bertoli Cavi

Bertoli Cavi, also based in Italy, specializes in electrical, telephone, and optical fiber cables for civil and industrial use. They offer customized solutions for specific project requirements, including underground installations. Their products comply with Italian, European, and international standards, and they provide technical consulting and support for large-scale projects such as dams, bridges, highways, and renewable energy installations. Bertoli Cavi has a strong presence in over 20 countries, demonstrating their capability to handle international infrastructure projects
