

Steel Fireproof Cable Tray Manufacturer Prices

Article Overview

Steel fireproof cable trays typically range from \$15 to \$150 per meter, depending on material, type, size, and customization options.

Price Range Overview

Steel fireproof cable trays are available in various types, including ladder trays, solid-bottom trays, trough trays, and wire mesh trays, each affecting the cost. Standard steel trays generally start around \$15–\$30 per meter for basic galvanized or powder-coated models, while heavy-duty or fully customized fireproof trays can reach \$100–\$150 per meter or more, especially for large widths or specialized coatings. Stainless steel options, which offer superior corrosion resistance, are typically at the higher end of the price spectrum.

Factors Affecting Price

- **Material:** Galvanized steel is more affordable, while stainless steel or high-grade fireproof composites increase cost.
- **Tray Type:** Ladder trays are generally less expensive than solid-bottom or wire mesh trays due to material usage and manufacturing complexity.
- **Dimensions:** Wider or longer trays require more material, increasing the price. Widths can range from 50mm to 1200mm, and lengths are often customizable.
- **Surface Finish:** Options like pre-galvanized, electro-galvanized, HDG, powder-coated, or painted finishes affect durability and cost.
- **Customization:** OEM/ODM services, special fireproof coatings, or unique structural...
