

What does HS mean in optical fiber cable

Overview

Optical fiber cables use HS code 8544. This 6-digit code covers cables made of individually sheathed optical fibers for telecom and data transmission. Heading 44: Insulated conductors. Subheading 70: Optical fiber cables . When importing or exporting a product, the Harmonized System Code (HS Code) for the product is often required on the customs documents. Key updates include GCC 12-digit codes from Jan 1, US HTS mandates post-Aug 2025, and EU CN revisions. Developed by the World. 100 Mb/s LAN using Demand Priority Protocol originally developed by Hewlett Packard and AT&T for Category 3 cable An implementation of the Institute of Electrical and Electronic Engineers (IEEE) Ethernet standard on 62 5/125- μm fiber optic cable, a baseband medium of 10 Mbps An implementation of. fiber optic cable HS-codes. Visit us online to get the various hs codes and commodity description.
