

Where can I find a distributor for fiber optic panels

Article Overview

FS, CommScope, Corning, Amphenol Network Solutions, and DLL Partners are recognized distributors of fiber optic panels for enterprise, data center, and telecom applications.

Key Distributors and Offerings

FS (FS Europe) offers a wide range of fiber optic panels, including FHD® FAPs and FHU® 1U patch panels with LC, SC, and MTP®/MPO connectors for both singlemode and multimode fiber, suitable for medium to high-density network deployments . CommScope provides Propel Series sliding fiber panels, FPX modular panels, and high-density preterminated panels with SC, LC, or MPO connectors. Their panels support indoor/outdoor and plenum-rated cables, and can be shipped with factory-installed adapter packs or preterminated pigtail assemblies to simplify installation . Corning supplies a comprehensive selection of fiber optic hardware, including racks, panels, modules, and splice trays, designed for structured cabling systems in enterprise and telecom networks . Amphenol Network Solutions offers high-performance fiber panels in pre-terminated, patch-and-splice, and AOM (Advanced Optical Module) configurations. Their C2E and C2X chassis allow flexible deployment with scalable density, supporting up to 12 single cassettes in 1RU or 8 cassettes in 2RU . DLL Partners specializes in MPO/MTP connectors and industrial fiber solutions, including compact fiber distribution frames, patch cords, and pigtails for singlemode and multimode applications, with options for custom configurations
