

Which company makes the best low-voltage enclosed busbars

Article Overview

CUBIC, Storm Power Components, and Eta-com are among the leading manufacturers of high-quality low-voltage enclosed busbars, offering modularity, safety, and customization.

Top Manufacturers and Their Strengths

CUBIC – A Danish company specializing in modular low-voltage switchboards and ready-to-use copper busbars. Their systems emphasize modularity, safety, and long-term reliability, with forged ends for optimal contact and stainless steel enclosures tailored to customer needs. CUBIC is known for flexible execution, high-quality testing, and strong support for integrators across industries .

Storm Power Components – Offers standard and custom low-voltage busbars in copper, aluminum, and brass. Their products include flexible, laminated, and insulated busbars with various finishes and platings (epoxy, tin, nickel, silver). They support both prototype and high-volume production, adhering to ASTM and AS9100D standards, and are ITAR registered, making them suitable for aerospace, telecom, and industrial applications .

Eta-com (Betobar Range) – Specializes in cast resin low-voltage busway systems with epoxy-resin insulation, providing moisture-resistant, fire-resistant, and self-extinguishing enclosures. Their prefabricated elements are self-supporting, electrically joined with compression contacts, and rated for currents up to 6140 A a...
