

Which trademark category does a smart PDU socket belong to

Overview

Nice Classification (NCL) is an international classification of goods and services applied for the registration of trademarks. Read our ultimate guide on Nice Classes. All goods and services are “classified” or organized into broad categories of goods or services, as determined by. TMclass helps you to search for and classify Goods and Services (terms) needed to apply for trade mark protection. Join free of charge. An Intelligent Power Distribution Unit (iPDU), also known as a Smart PDU or Intelligent PDU, is a critical component in modern data center infrastructure. The Power Distribution Units (PDUs) monitor the data center power and the environment by continuously scanning for electrical circuit overloads and physical environmental conditions that place critical IT equipment at risk.
